'Thank you Zahra for the life changing work we did together! When I started my home based business several years ago it was my plan to work part time. However, as time passed I found that I was actually working six days a week, between eight and eighteen hours a day. It was overwhelming and I had no idea of how to change things for the better. Then we were introduced and decided to work together.

I am happy to say that since our work together, I have been working the three days a week I wanted and spending the time I want with my family. What is really amazing though is that I've reduced my work time and yet I have tripled my income!

"Zahra, you are so inspiring! You have helped me reach for my dreams and take the steps to make them come true. You have the ability to encourage others and keep them going when they need it the most.

I cannot tell you how grateful I am to you for sharing your insights and thoughts. You say exactly what I need to hear.

Thank you so much for encouraging me with my writing and keeping me on track. You have not only given people their dreams but have also introduced new and inspiring friends into their lives."

When I first started working with Zahra, all I was looking for was inner peace and I have found it. My life has completely changed. I have become aware of the patterns and habits that were not serving me. I have changed the friendships I have and am attracting healthier friendships. I focus more on my life instead of on my children's lives and they are free and happy around me as a result. This is the first time I am able to be myself instead of being busy all the time and I can relax and be with my feelings. I am feeling optimistic and excited about my life.

“Our deepest fear is not that we are inadequate. Our deepest fear is that we are powerful beyond measure. It is our light, not our darkness that most frightens us. We ask ourselves, who am I to be brilliant, gorgeous, talented, and fabulous? Actually, who are you *not* to be? You are a child of God. Your playing small does not serve the world. There is nothing enlightened about shrinking so that other people won't feel insecure around you. We are all meant to shine, as children do. We were born to make manifest the glory of God that is within us. It's not just in some of us; it's in everyone. And as we let our own light shine, we unconsciously give other people permission to do the same. As we are liberated from our own fear, our presence automatically liberates others.”
